 ... Maharana Pratap auditorium.

RO Purifiers are **HISTORY**

Wasted **80%** of your precious water.

Presenting

WORLD'S Only
ECO-FRIENDLY RO WATER PURIFIER

Hurry! Upgrade to Zero B eco RO

80%
 Less Wastage
 of Water

HRR TECHNOLOGY
 Improves Water Recovery
 Phenomenally by 80%

ESS TECHNOLOGY
 Cleans Purifier Automatically
 24 x 7, Prevents Germ Build-up
 in Water Tank

8 STAGE
 Purification process ensures more
 pure water for your health

FREE! GET YOUR WATER TESTED TODAY

Zero B eco RO is unique!

Zero B **eco RO** has revolutionary HRR* technology that reduces wastage of water by 80% as compared to other conventional RO water purifiers. This breakthrough in water purification comes after extensive research by Expert Scientists at Ion Exchange (India) Ltd., Asia's largest water treatment company. The 8 stage **eco RO** that ensures pure water comes with E-Health technology that keeps the product water fresh for a week. **eco RO** is compact in size with elegant looks and excellent output performance that provides the ultimate protection against all waterborne diseases for your family's health.

Zero B eco RO is equipped with

Improves Water Recovery Phenomenally by 80%

Purification Process Ensures More Pure Water for your Health

Automatic Power Flush Enhances Membrane Life

Cleans Purifier Automatically 24 x 7, Prevents Germ Build-up in Water Tank

Keeps Tank Water Fresh for a Week

Makes other UV & RO Outdated

Gives Energy Stimulating Water for Healthy and Energetic Life

AWARDED WITH "Mera Brand" - 4 years in a row

BEST DOMESTIC WATER SOLUTIONS PROVIDER BY WQA & UNESCO

Special Features Zero B eco RO

- Wall mount model
- Easy clean, detachable, transparent 6 liters storage tank
- New ultra low / fouling membrane
- Inbuilt voltage stabilizer / compact switch power mode
- Removes all bacteria / virus & chemicals (pesticides, insecticides) / metallic impurities from water

- Removes bad smell / odor & provides energised water
- Automatic tank level control
- Backed by over 999 service centres across India
- From the House of Ion Exchange (India) Ltd., trusted by millions of customer across the world

Product water meets USEPA drinking water standards & IS 10500

The 8 Stage Purification

STAGE 1: PRE-FILTRATION: Removes particles like sand, silt, hair & other finer particles from the water

STAGE 2: HIGH Q FILTRATION: Efficiently traps higher quantity of fine particles and suspended impurities

STAGE 3: BACTERIOSTATIC ACTIVATED CARBON: Filtration removes organic impurities, carcinogenic, chemicals, chlorine, color and odour & prevent growth of bacteria

STAGE 4 & 5: WATER SAVER CARTRIDGE: Ensures extra high water recovery & reduces wastage of water by 80% & the dual process fights against germs built up 24 x 7, thus prevents biofouling of membrane & enhances membrane life

STAGE 6: ULTRA LOW FOULING REVERSE OSMOSIS MEMBRANE: Promotes high recovery of good water & rejects excess salts, bacteria, virus, chemicals, & toxic contaminants like pesticides, arsenic, fluoride & heavy metals.

STAGE 7 & 8: E-HEALTH CARBON FILTER: An amazing electrolytic process ensures double protection to the RO purified water & prevents re-contamination of the tank water due to external conditions for a week

Technical Specifications

| PARAMETERS | ZERO B eco RO |
|-------------------------------------|-----------------------------------|
| Dimensions (basic unit) | 275mm (L) X 230mm (W) X 370mm (H) |
| Weight | 12 kg |
| Output Flow rate | 10 litre/hour |
| Water Storage Capacity | 6 litres |
| Inlet Pressure | 0.5-2.0 kg/cm ² |
| Maximum Inlet Water TDS | Upto 1500 ppm |
| Water Saving | 80% (Tap water saved) |
| Rejection of Total Dissolved Solids | 90 - 95% |
| Operating Voltage | 180-280 VAC |
| Power Consumption | 30 watts max |

Note: Specifications are subject to change without prior notice
